

'APPLICATION OF COLOUR CONTRASTS IN PAINTING'

Instructor: Dominik J. Modlinski

Intermediate to advanced

2 days – ZOOM CLASS

October 15th and 16th

10am – 3:30pm PST

The workshop is aimed for beginner and intermediate artists who wish to expand their knowledge of colour theory using either oil and acrylic painting techniques while enhancing their perception and creative visualization. Dominik will address the principles of colour theory using just three primary colours that strengthen students' understanding of correct colour ratios and principles of colour contrasts. The simplicity of this approach will give students the freedom and understanding of colour mixing, which leads to harmonious and successful paintings.

- During the course of the workshop Dominik will demonstrate how to mix unlimited colour hues using colour contrasts principles. There will be emphasis of the economy of brush movements to keep colours clean and saturated while traveling from one hue to another.
- Together colour contrasts constitute the fundamental resource of colour design, either in stand-alone or

dynamic duos combinations. Each colour contrast is unique in character and in its visual and expressive effect. Understanding each colour contrast creates unlimited creative opportunities both in design and symbolic aspect of painting.

- The aim of this workshop to inspire students to compose artwork based on strong colour contrast choices which are carried diligently throughout creative process resulting in bold and colorful works of art.
- Students will leave the workshop with many colour theory exercises charts, which then, they can display in their studio for quick reference.

This class will be delivered via video conference Zoom app. Please make sure you download the app prior the time of the workshop and that you are familiar with its functions. As a participant you will require camera and microphone-enabled computer, laptop or smartphone. If you are new to the app please open the link 30 min. prior the starting time so you have time to make sure everything works properly.

- After the workshop, **Colour Contrasts Theory** video recap will be emailed to you.
